June 2026 Financial Update

On July 15, 2026, we announced that management's unaudited estimate of the range of our net asset value ("NAV") per share of our common stock as of June 30, 2026 is between \$3.28 and \$3.38. This estimate is not a comprehensive statement of our financial condition or results for the month ended June 30, 2026. This estimate did not undergo the Company's typical quarter-end financial closing procedures. We advise you that current estimates of our NAV per share may differ materially from future NAV estimates or determinations, including the determination for the period ending July 31, 2026, which will be reported in our monthly report on Form N-PORT.

Our financial condition, including the fair value of our portfolio investments, and results of operations may be materially impacted after June 30, 2026 by circumstances and events that are not yet known. To the extent our portfolio investments are adversely impacted by interest rate and inflation rate changes, the ongoing war between Russia and Ukraine, the escalated armed conflict and heightened regional tensions in the Middle East, activity in South America, the agenda of the U.S. Presidential administration, including the impact of tariff enactment and tax reductions, trade disputes with other countries, instability in the U.S. and international banking systems, the risk of recession or the impact of the prolonged shutdown of U.S. government services and related market volatility, or by other factors, we may experience a material adverse impact on our future NAV, net investment income, the underlying value of our investments, our financial condition and the financial condition of our portfolio investments.
